Cars outside school gates on Harrington Road

Dear parents and carers,

I have received multiple complaints from parents about the way some parents choose to park their cars along the zig zag lines outside of the school. Although I totally understand the morning rush and desire to get your children in on time but by using these areas to park it is putting children at risk. We must do whatever we can to prevent an accident. The zig zag lines are there for a reason which is to protect children from danger immediately outside of the school.

From this week we will be cordoning off the area with cones which signal areas that must not be used for parking. Please adhere to these.

I hope that you can understand our concern and will support us in this matter.

Kind regards,

Verity Carter
Headteacher
